

Cleaning for a healthier environment

---

# BR1050BT2

Battery Operated Ride on Scrubber Drier

\*Product Image are for reference only

**Mechanized  
Cleaning  
Solutions**

# BR1050BT2 up to 5500 m cleanliness/hour.

Dirt water tank can be easily cleaned - thanks for the easy accessibility and large opening.

Brush release by foot. No tools required.

Large Anti Skid wheel for safe driving and operation on any floor.

Variety of brush options available to suit different floors.

Technical Specification		
Description	unit	Values
Number of Brushes	Nos	2
Brush Diameter	mm	430
Brush Load	kg	80
Brush speed	rpm	180
Drive		Battery
Machine work type		Ride-on
Brush Type		Disc
Scrubbing width	mm	1000
Suction Width	mm	955
Cleaning Productivity	(max),(m2/h)	5500
Net weight of Machine	kg	280
Water Suction Motor	(W)	750
Forward Speed Max	Km/h	9
Wheels		Solid rubber
Material of chasis		Mild Steel as per IS:2062 (Grade-A)
Material of body		ABS
Power Source		Rechargable Battery
Battery Chemistry		Lead Acid Battery
Battery bank voltage	V	36
Capacity of Battery	AH	300
Chemical auto dosing		AUTO
Fresh Water Tank	Litre	155
Dirty Water tank	Litre	160
Noise level at 1m	db (A)	63

**Safety Features :** Solenoid Valve and Automatic water stop feature included in the machine

**Maintenance Features :** Anti skid wheels and auto brakes for better protection.

**Advanced operation console :** Vacuum motor adjustments and water level quantity can be managed and for machine protection key entry is provided so unauthorized use is prohibited (2 keys included with machine ) and programming for various application of floors

**Modes :** Eco mode for daily operation, hyper mode for heavy cleaning, suction mode for dirt areas polishing mode for spillage areas suction
